
CSC-NETCO Numeracy Project Working Committee

(March 28, 2008)

About the CSC-NETCO Numeracy Project Working Committee

The CSC-NETCO Numeracy Project Working Committee:

- was created in March 2008 and will disband when the project concludes in December 2009.
- brings together the unique mix of talent needed to achieve project-specific goals.
- is overseen by NETCO's ongoing Project Steering Committee which has balanced representation from various electrical industry stakeholders. The Project Steering Committee is under the authority of NETCO's Board of Directors.

Structure (12 seats)

5 seats - Electrical Industry Training Delivery Partners
3 seats – CM&A Consulting Team
2 seats– Construction Sector Council
1 seat – Canadian Council of Directors of Apprenticeship
1 seat – IBEW Canadian Office

“It is a pleasure to acknowledge and thank Working Committee members and their sponsoring organizations for playing a leadership role in this important initiative. We are looking forward to adding a NETCO-endorsed Numeracy Assessment Tool to our growing suite of Human Resource Tools & Products.”

Phil Flemming
NETCO President

Eryl Roberts
NETCO Treasurer
